BUNSCAKE TEACHINGS

EARN CAKE

8% of every buy/sell is taken and redistributed to all Holders. Hold \$BSCAKE and earn CAKE.

REDISTRIBUTION

The dividend mechanism incentivizes token holders to hold in order to earn dividends from the transactions.

The dividends are not dependent on the price of either BUNSCAKE or Cake. They are based purely on the volume and proportional to the BUNSCAKE amount you hold in your wallet.

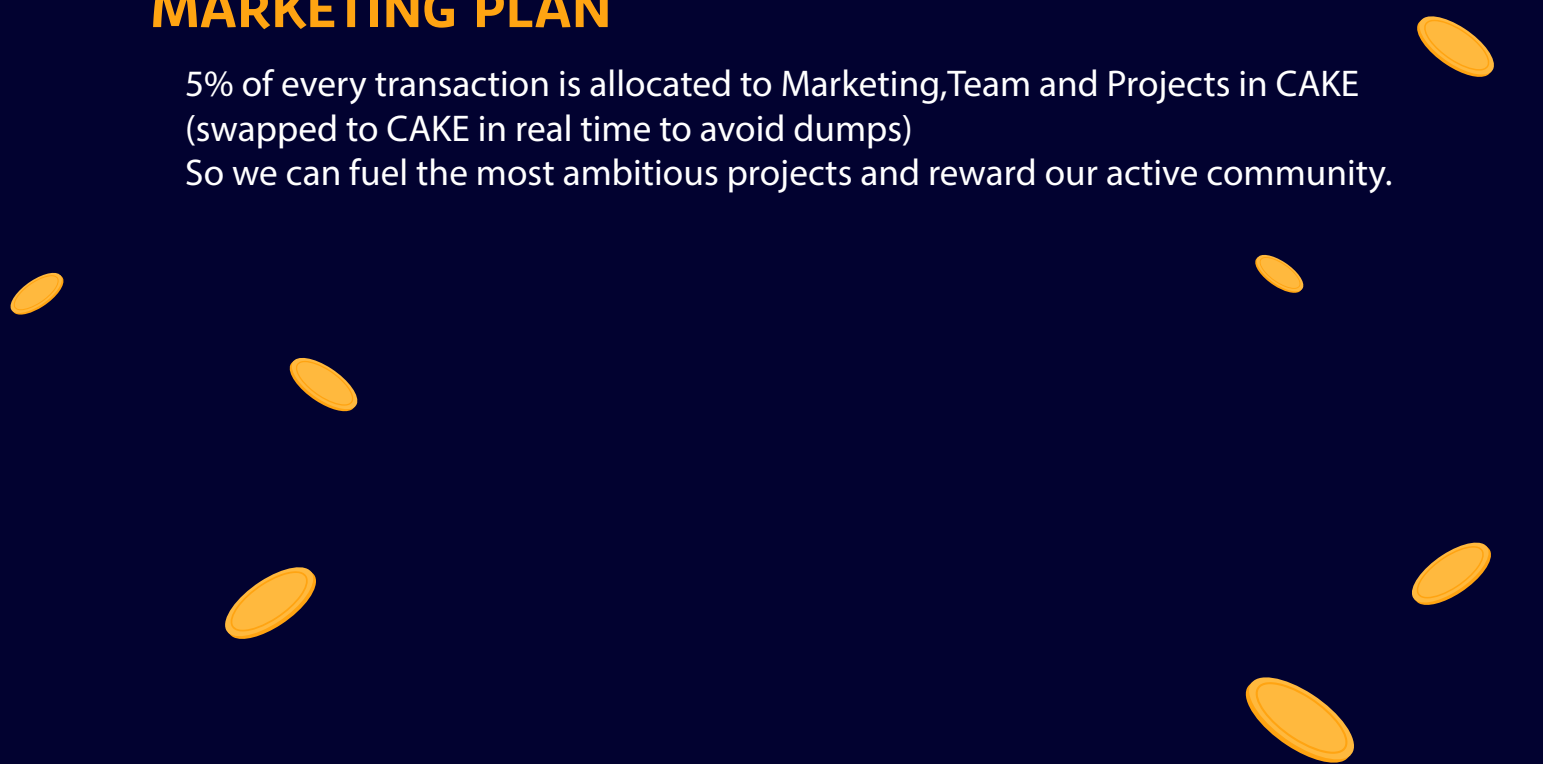

AUTO PAID

You don't need to claim you reearned CAKE. It's automatically sent to your wallet every 60 minutes.

MARKETING PLAN

5% of every transaction is allocated to Marketing, Team and Projects in CAKE (swapped to CAKE in real time to avoid dumps)

So we can fuel the most ambitious projects and reward our active community.

BUNSCAKE TOKENOMICS

There is a 15% buy tax.

An extra 1% fee is applied to all sales to encourage holding and to discourage swing trading and to lessen Whale manipulation.

The token contract employs a static rewards system.

8% CAKE rewards for holders

2% is used to fuel the liquidity pool

5% allocated to the Marketing and Team, Project wallet
